## CURLING SHOES

BalancePlus curling shoes are designed to meet the needs of every curler – from first-time beginners to elite, World Championship level athletes. Our four-shoe lineup is purpose-built, with each model engineered to support a specific style of play, skill level, and performance need. Every BalancePlus shoe is built with the same commitment to quality and on-ice performance, ensuring curlers can progress confidently as their game evolves.

### Every BalancePlus Shoe includes:

#### Two sets of insoles

Thick and thin insoles for more fitting options and desired underfoot comfort.

#### Velcro Slider and Gripper Pods

Easily changeable pods for replacement or upgrade. Just go to the Pro-Shop when it's time for a change and don't skip a beat with your game.

#### Toe Coating

Each style of shoe has toe coating included or is an option to have toe coating applied to the shoes for reduced drag and added performance.

#### Extra Laces

Every shoe comes with an extra set of laces for a backup when you need them.

# 400 SERIES CURLING SHOES

Step onto the ice with confidence in the 400 Series Curling Shoes – lightweight, comfortable, and designed to enhance your performance whether you're just starting or play up to three times a week. These curling shoes are crafted for long-lasting durability, making them a favorite among new players who want reliable equipment without sacrificing comfort.

**Ideal For:** Play for up to 3 times per week. Recreational / Club level play.

**Comfort-Feel:** Upper: Stable, Outsole: Lightweight, flexible.

**Construction:** Durable, lightweight design. Leather upper, Cambrelle inside lining.

**Performance:** Stable, comfortable, easy to control. Includes trailing toe coating. Customize slider pods for added speed or control

# 700 SERIES CURLING SHOES

Step onto the ice in style and comfort with the 700 Series Curling Shoes – designed for curlers who value flexibility, agility, and a modern athletic look. These ultra-lightweight curling shoes are ideal for players who curl twice a week, offering freedom of movement and superior comfort without unnecessary bulk.

**Ideal For:** Play for up to 2 times per week. Recreational / Club level play.

**Comfort-Feel:** Upper: Soft, breathable. Outsole: Lightweight, flexible.

**Construction:** Lightweight design. Breathable cloth upper, Cambrelle inside lining.

**Performance:** Stable, comfortable, easy to control. Includes trailing toe coating. Customize slider pods for added speed or control

# 900 SERIES CURLING SHOES

The 900 Series Curling Shoes combine the best of our Delux and 700 Series designs, offering lightweight flexibility with the long-lasting durability of premium leather. Featuring phylon outsoles for stability, optional toe coating for reduced drag and increased performance, and Thinsulate insulation for warmth, these shoes are perfect for curlers who play multiple times a week. Customizable Velcro soles allow for easy slider and gripper changes, while two included insole sets ensure a personalized fit and all-day comfort.

**Ideal For:** Play for up to 5 times per week. Competitive / Elite level play.

**Comfort-Feel:** Upper: Solid. Outsole: Lightweight / Flexible.

**Construction:** Durable lightweight design. Full grain leather inside and out. Thinsulate interlining.

**Performance:** Performance based design. Optional trailing shoe coating. Customize slider pods for added speed or control.

# DELUX CURLING SHOES

Trusted by champions since 1998, the Delux Curling Shoes have won more World Championships and Olympic medals than all other brands combined. Built for curlers who demand the highest level of performance and durability, these shoes deliver lasting value and elite-level results. Featuring welted construction and crafted from full-grain leather with a leather-lined interior, the Delux Series combines strength, comfort, and timeless style.

**Ideal For:** Elite competition and high-volume, high-performance play.

**Comfort-Feel:** Upper: Solid  
Outsole: Solid, torque resistant to stabilize the foot during delivery.

**Construction:** Durable lightweight design. Full grain leather inside and out. Thinsulate interlining.

**Performance:** Performance sliding platform. Optional trailing shoe coating to accommodate specific deceleration preferences.

# BalancePlus

## SLIDER & GRIPPER POD SYSTEM

BalancePlus curling shoes use a two-piece Velcro® slider and gripper pod system for easy performance customization. Slider pods are available in four thicknesses— $1/16$ ",  $1/8$ ",  $3/16$ ", and  $1/4$ "—with increased thickness delivering greater speed. A Velcro-attached gripper pod on the non-sliding foot provides reliable traction, while the modular design allows quick changes, upgrades, and long-term adaptability.

## GRIPPERS (ANTI-SLIDERS) & SLIDERS

**GRIPPERS  
(ANTI-SLIDERS)**

### DID YOU KNOW?

BalancePlus Grippers are **100% recyclable!** Send us your used grippers, and we'll repurpose the rubber into doormats, automotive parts, gaskets, and other sports equipment, helping keep waste out of landfills.

BalancePlus GRIPPERS are the safest anti-sliders on the market. Designed specifically for the left and right foot instead of a unifoot design – they fit curling shoes better. They also feature a secure locking system to prevent accidental release. Made from a specially formulated cold-performance rubber compound, they deliver dependable traction on the ice where safety matters most.

Pull-On Sliders are built on the same platform as our Anti-Sliders, these feature a full-sole 1/16" Stealth Teflon slider for smooth performance. Designed for left or right foot use with a secure locking fit

Step-On Sliders feature a full-sole 1/16" Teflon slider with the patented BalancePlus hole for weight distribution, these quick step-on sliders are perfect for Learn to Curl programs, rentals, and junior curlers. Step in to slide, step out for traction

*Listed weights are based on specific component configurations.*

BalancePlus curling brooms are designed for every level of play, from new curlers to elite competitors. Four broom models offer a range of weights and materials to balance performance, durability, and value—lighter options for increased responsiveness, heavier models for durability and entry-level use. All BalancePlus brooms feature Lightspeed broom heads, a modular system that allows easy performance and style updates with interchangeable sleeves available in multiple colors and materials. Select high-performance models also include a grip coating to enhance control and down pressure.

# THE LIGHTEST CURLING BROOM IN THE WORLD

The Balance*Plus* LiteSpeed Curling Broom is one of the lightest and most efficient curling brooms in the world, trusted by both recreational and elite competitive athletes. Designed for high-performance sweeping, the LiteSpeed delivers exceptional responsiveness and control while reducing fatigue over extended play. For clubs and retailers, BalancePlus now offers stock LiteSpeed brooms with pre-configured options, making ordering faster, easier, and more predictable.

Weighing just 293 g\*, the LiteSpeed broom includes a factory-applied grip coating to improve hand traction and increase down pressure, allowing players to apply greater force to the ice with improved efficiency. The broom is equipped with the RS head system, which supports full customization and offers three foam densities to match different ice conditions and performance preferences. LiteSpeed brooms are available in 13 handle designs, along with virtually unlimited customizable brush skin options, providing clubs with both performance flexibility and strong visual appeal.

\*Weight may vary slightly depending on configuration.

# FACEPLATES

BalancePlus Curling Broom Faceplates are engineered for performance, durability, and customization. As the part of the broom that makes direct contact with the ice, the faceplate is essential in producing friction and heat to influence a curling stone's path.

Fi specifically to fit the LiteSpeed Capture Piece.

**OVAL**

**Description:**

Traditional oval stapled designs in WCF Approved, EQ, and EQ+ versions.

## Sportlite vs. Sportlite+ vs. WCF eLite

# RS BRUSH SYSTEM

Get the most out of your sweeping with BalancePlus RS. The lightest brush in curling now has reusable foam and baseplate components. A Replaceable Sleeve is all that is needed when it's time for a change. The foam and baseplate components are reusable. All BalancePlus LiteSpeed brushes can now be customized for different ice conditions and desired effect on both curl AND distance.

## RS FOAM EXPLAINED

### ORIGINAL LIGHT

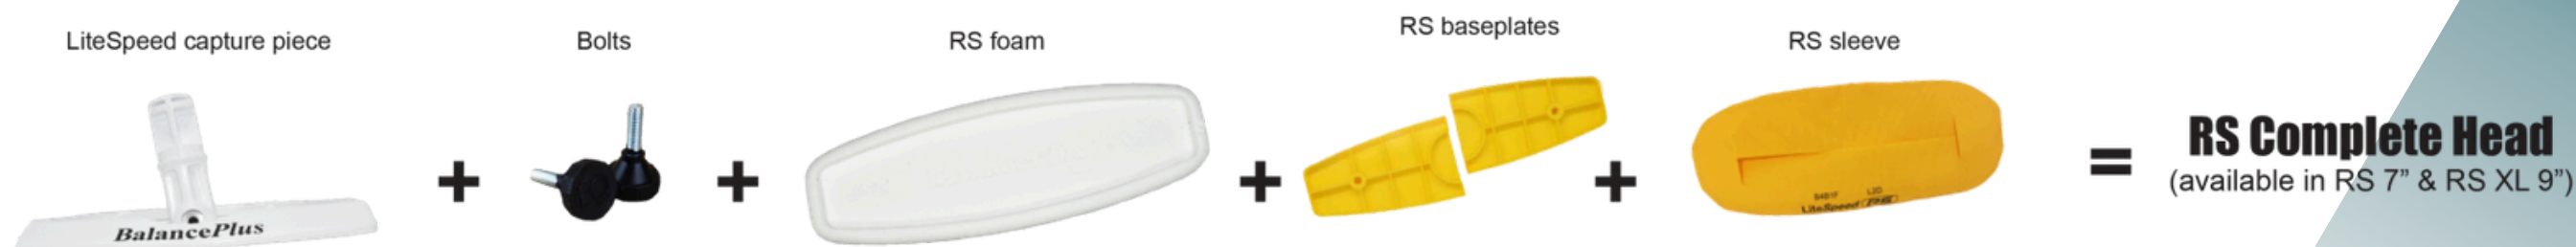

Designed to create a traditional curling environment where shot outcomes are driven primarily by the thrower. This is the lightest version of RS Foam available.

### RS 2.0 FIRM

Provides the greatest sweeping influence. Allows for maximum carving for curl and also promotes the best results for distance. 2 - in - 1 performance making this the best RS Foam for non-competitive play.

### RS 3.0 WCF APPROVED

Balances influence between the Original Lite RS Foam and the RS 2.0 Foam. This RS foam is fully compatible for play in all competitive events.

# RS SLEEVES

BalancePlus RS Sleeves are designed to fit the LiteSpeed Capture Piece, forming the faceplate that makes direct contact with the ice. These sleeves are the key component in sweeping performance – generating the friction and heat that influence a curling stone’s path. All Sleeves are available in both RS7" and RS XL 9" versions.

**SPORTLITE**

The original SportLite RS Sleeve is lightweight, responsive, and available in a wide range of color combinations. With options for top and bottom colors, it's easy to design a broom that looks as good as it performs.

**SPORTLITE+**

Take your sweeping to the next level with SportLite Plus – a PVC-coated upgrade that adds waterproofing and durability. The neon orange bottom and customizable top colors improve stroke rate and help you maintain power and efficiency on every sweep.

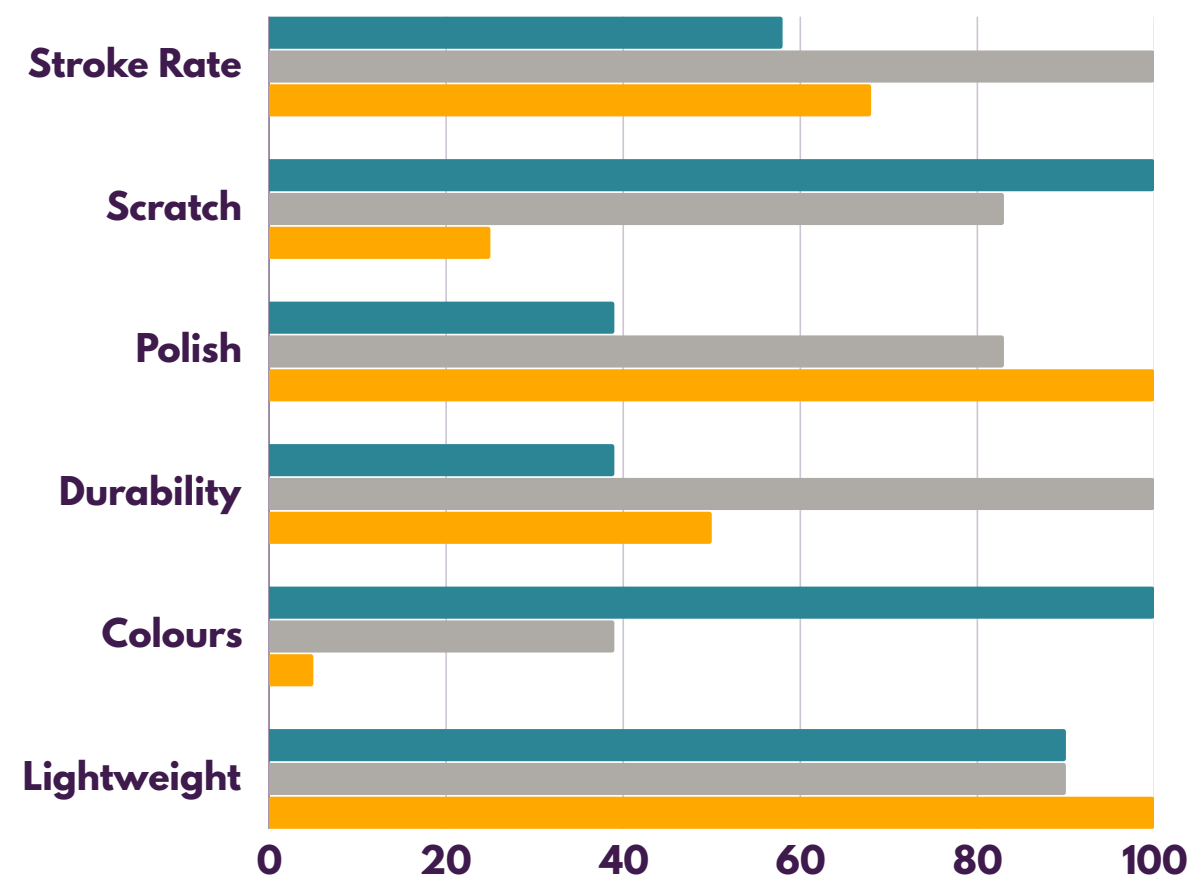

**eLite WCF APPROVED**

Step onto the ice with confidence using WCF Approved Curling Broom Sleeves, ready for competitive curling at every level, including international championships. Designed to fit your existing LiteSpeed broom head, these sleeves provide the performance, compliance, and durability curlers need when regulations matter most.
